TO WHOM IT MAY CONCERN,

We own a Xerox 230ST document centre since March 1999 which we purchased from Kap Data. The machine counter now indicates a total of 337,500 units of print-jobs, fax-jobs and photocopies. The equipment has proven to be very reliable with minimal down-time, delivering consistent quality print-outs. Also, the Xerox Support Service people were always prompt and professional in responding to our needs and concerns. Finally, it is a pleasure dealing with Karyn Spacek who is dedicated to customer satisfaction.

Yours truly  
LECOURS LUMBER CO. LIMITED
