Dear Karyn:

Re: Tech Break Time presentation

On behalf of NEOnet and North Claybelt CFDC, I would like to take this opportunity to thank you for speaking about Websites at our May 4 *Tech Break Time* luncheon.

Based on the comments received, participants found the presentation to be interesting and informative. They appreciated the opportunity to learn about communicating through websites, and many stayed longer to discuss further.

Thank you for getting involved in this initiative. By taking part in these luncheons, you're helping us fulfill the education and awareness building part of our mandate. We look forward to working with you again in the future.

Yours truly,

Andrée Veilleux
ICT Research and Awareness Coordinator
